

BRANDORAX

Company Overview

EXECUTIVE SUMMARY

BrandoraX is an online-first digital workforce development company designed to bridge the gap between skill acquisition and real-world employment. The company integrates structured tech training, real-time job placement systems, employer partnerships, and community empowerment initiatives into one scalable ecosystem.

Unlike traditional tech schools that stop at certification, BrandoraX focuses on measurable career outcomes by building a structured talent pipeline that connects trained individuals to startups, SMEs, and corporate organizations.

BrandoraX is not a conventional tech academy. It is a demand-driven talent pipeline that aligns training directly with real industry needs.

BrandoraX operates across three core pillars:

1. Academy (Skill acquisition and structured learning programs)
2. Talent Pipeline (facilitates internships, apprenticeships, and employment opportunities through employer partnerships.)
3. Community Empowerment (Webinars, outreach programs, community development initiatives)

BrandoraX's objectives within its first two years is to train over 500 learners, achieve a 80-85% placement rate, and establish strong partnerships with at least 50 employer organizations.

COMPANY DESCRIPTION

BrandoraX is a digital talent acceleration company established to solve a critical problem. Many individuals acquire skills but struggle to secure employment due to lack of practical experience and employer access.

BrandoraX addresses this gap through:

- Market-aligned training programs
- Structured project-based learning
- Employer-integrated placement systems
- Real-world project exposure
- Career readiness development

BrandoraX begins as an online-first company to maintain lean operational costs and scale efficiently. After achieving stable revenue and job placement success, the company plans to establish a physical innovation center.

VISION

To become Africa's most practical and employment-driven digital talent pipeline.

MISSION

To equip individuals with in-demand skills and connect them to real-world career opportunities through structured systems.

CORE VALUES

- Practical impact
- Excellence
- Integrity
- Innovation
- Community development

MARKET ANALYSIS

Industry Overview

The global digital skills and workforce development industry is rapidly expanding due to:

- Growth in remote work
- Increased demand for tech professionals
- Youth unemployment challenges
- Corporate digital transformation

In Africa, the demand for employable tech talent continues to outpace supply, creating a strong opportunity for structured talent development models.

TARGET MARKET

Primary market:

- Young adults (18-35 years)
- Graduates and career switchers
- Entry-level tech professionals

Secondary market:

- Startups and SMEs seeking affordable tech talent
- Corporate organizations seeking junior tech staff
- NGOs and government agencies promoting youth empowerment

COMPETITOR ANALYSIS

Alx

- Offers structured tech programs with career support
- Strength: strong brand presence and structured curriculum.
- Gap: limited control over direct job placement.

Andela

- Connects African engineers to global employers.
- Strength: strong global employer network.
- Gap: focused mainly on experienced engineers.

Decagon

- Trains and places software engineers into companies.
- Strength: strong funding and structured housing model.
- Gap: narrow specialization in software engineering only.

BrandoraX's Competitive Advantage

- Direct integration of training and job pipeline
- Internal real-time project system
- Lean online-first scalability
- Employer partnership model from early stage
- Future integration of production and service delivery

BrandoraX differentiate itself by building an internal workforce system rather than relying solely on external hiring platforms.

SERVICES

1. Academy Programs

- UI/UX Design
- Web Development
- Data Analysis
- Cybersecurity
- Digital Marketing

Tracks:

- 3-Month intensive
- 6-Month Professional
- 12-Month Advanced Track

Each program includes:

- Project-based learning
- Portfolio development
- Career readiness training
- Employer matching support

2. Real-time job hub

- Internship placement
- Apprenticeship matching
- Freelance project allocation
- Employer job postings

Revenue Model:

- Employer placement fees
- Commission on completed projects

3. Digital and Production Services

- Branding services
- Website development
- UI/UX consulting
- Corporate design services

This division generates revenues while offering students supervised live project exposure.

4. Community Empowerment
 - Free tech awareness webinars
 - Youth training bootcamps
 - Partnership programs with NGOs
 - Skill orientation programs

MARKETING AND SALES STRATEGY

Marketing Channels

- LinkedIn professional content marketing
- Instagram and social media campaigns
- Webinar funnels
- Email marketing campaigns
- Alumni referral programs

Sales Strategy

- Direct outreach to startups and SMEs
- Corporate training proposals
- Employer partnership agreements
- Student conversion funnels from webinars

BrandoraX will position itself as an outcome-based institution rather than a certificate-based academy.

OPERATIONS PLAN

BrandoraX operates initially as a remote digital organization.

Workflow System:

- Student enrollment
- Training delivery
- Project evaluation
- Career readiness training
- Employer matching
- Placement tracking

Technology stack:

- Learning management system
- Job matching dashboard
- CRM for employer partnerships
- Payment integration system

MANAGEMENT AND ORGANIZATIONAL STRUCTURE

Founder/CEO

- Strategic direction
- Investment relations

Program Director

- Curriculum design
- Instructors' supervision
- Student performance oversight

Partnership / Sponsorship Lead

- Company outreach
- Placement agreements
- Sponsorship deals
- Employer relationships

Product Lead

- Website and platform development
- Job marketplace system
- System optimization

Marketing and Growth Lead

- Campaign strategy
- Lead generation
- Brand positioning

Operations Manager

- Student onboarding
- Administrative processes

- Reporting and compliance

This lean structure ensures efficiency and cost control during the first two years.

UNIT-BY-UNIT BREAKDOWN

1. FOUNDER / CEO

Core Role

Vision, strategy, and high-level control

Sub-Team

Works Closely With:

- Partnerships Lead (for major deals)
- Product Lead (platform direction)
- Program Director (training quality)

How This Unit Operates

- Weekly leadership meetings
- Final decision-making
- Growth direction

2. PROGRAM DIRECTOR (ACADEMY UNIT)

Core Responsibility

Owns Train → Test system

Sub-Team

A. Instructors

- Teach UI/UX (and future courses)

B. Mentors / Reviewers

- Review student work
- Guide improvements

C. Assessment Coordinators

- Manage tests
- Evaluate performance

How This Unit Operates

Flow:

Weekly System

- 2–3 live classes
- Weekly project submissions
- Bi-weekly reviews

Output

Job-ready students

3. PARTNERSHIPS & SPONSORSHIP UNIT

Core Responsibility

Owns **Deploy + Revenue Relationships**

Sub-Team

A. Partnership Executives

- Reach out to companies
- Build relationships

B. Sponsorship Coordinator

- Handles sponsor deals
- Manages sponsor communication

C. Talent Placement Officer

- Matches students with companies

How This Unit Operates

Flow:

Weekly System

- Daily outreach (emails, LinkedIn)
- Weekly follow-ups
- Monthly partnership reports

Output

Jobs + sponsorship revenue

4. PRODUCT LEAD (TECH UNIT)

Core Responsibility

owns **Platform & Systems**

Sub-Team

A. Web Developer(s)

- Build website
- Maintain platform

B. UI/UX Designer

- Design user experience
- Improve product usability

C. QA / Tester (Optional later)

- Test systems
- Ensure quality

How This Unit Operates

Phase 1 (Now)

- Landing page
- Registration system

Phase 2

- Student dashboard
- Talent profiles

Flow:

Output

Functional platform

5. MARKETING & GROWTH UNIT

Core Responsibility

Owens Visibility → Leads → Students

Sub-Team

A. Content Creators

- Social media posts
- Educational content

B. Graphic Designer

- Flyers
- Branding

C. Video Editor

- Reels
- Promo videos

D. Ads/Lead Manager (Optional)

- Runs paid campaigns

How This Unit Operates

Content Flow:

Weekly System

- 3–5 posts
- 2–3 videos
- 1 webinar campaign

Output

Leads & enrollments

6. OPERATIONS UNIT

Core Responsibility

Owns **Execution & Coordination**

Sub-Team

A. Program Coordinator

- Schedules classes
- Tracks attendance

B. Admin Support

- Handles logistics
- Student records

C. Support Officer

- Handles student issues

How This Unit Operates

Flow:

Daily System

- Monitor classes
- Handle issues

- Ensure smooth running

Output

Smooth operations

3. HOW ALL UNITS CONNECT

FULL SYSTEM FLOW

FINANCIAL PROJECTIONS (2-YEARS ESTIMATE)

Revenue Sources:

- Tuition fees
- Employment placement fees
- Corporate training contracts

- Sponsorship contracts

Year 1 Targets:

- 150-200 students
- 40% placement rate
- Break-even approach by end of year 1

Year 2 Targets:

- 400-500 students
- 60-65% placement rate
- Positive recurring revenue
- Expansion fund reserve

Major Costs:

- Salaries
- Platform development
- Marketing
- Technology tools
- Administrative expenses

Projected break-even: 18-24 months.

BRANDORAX 2-YEAR SCALING PROJECTION SYSTEM

(June 2026 – December 2027)

1. SCALING STRATEGY OVERVIEW

BrandoraX's growth is structured in **2 phases**:

Year 1 (June – Dec 2026): Foundation & Validation

- Build initial system
- Validate training model
- Secure first partnerships
- Deliver first student results

Year 2 (Jan – Dec 2027): Growth & Expansion

- Scale student intake

- Expand programs
- Strengthen partnerships
- Increase revenue streams

2. ACADEMY TRAINING SCALING

YEAR 1: Training Projection

Programs

- UI/UX Design (based on industry demand)

Cohorts

Cohort	Duration	Students
Cohort 1	3 months -	20
Cohort 2	6 months -	25

Total Students

45 students

Pricing

- 3-month → ₦80,000
- 6-month → ₦150,000

Revenue (Training)

₦5,350,000

YEAR 2: Training Projection

Programs Expanded

- UI/UX Design
- Graphic Design

Cohort Frequency

- Every 2–3 months

Student Intake

Intake Range	Students
Per Cohort	25–40
Total Year	150–200

Pricing Adjustment

- 3-month → ₦100,000
- 6-month → ₦180,000

Revenue (Training)

₦18M – ₦22M

3. PARTNERSHIP SCALING

YEAR 1: Partnership Projection

Target

5–10 companies

Focus

- Startups
- Small businesses

Outcomes

- 2–5 student placements
- Initial relationship building

YEAR 2: Partnership Projection

Target

15–25 companies

Expansion

- Startups
- SMEs
- Agencies

Outcomes

- 20–40 placements
- Structured hiring pipeline

4. SPONSORSHIP SCALING

YEAR 1

Target

2–3 sponsors

Revenue

~~₦~~400k – ~~₦~~600k

YEAR 2

Target

5–8 sponsors

Revenue

~~₦~~2M – ~~₦~~4M

5. FINANCIAL SCALING PROJECTION

YEAR 1

Revenue

Source	Amount
Training	₦5.35M
Sponsorship	₦ 0.5M

Total: ₦5.8M

Expenses

Category	Amount
Marketing	₦800k
Tools	₦300k
Operations	₦400k

Total: ₦1.5M

Net Position

₦4.3M

YEAR 2

Revenue

Source	Amount
Training	₦18M – ₦22M
Sponsorship	₦3M

Total: ₦21M – ₦25M

Expenses

Category	Amount
Marketing	₦3M
Tools/Platform	₦1M
Operations	₦1.5M

Total: ₦5.5M

Net Position

₦15M – ₦19M

6. COMMUNITY SCALING

YEAR 1

- Weekly webinars
- WhatsApp/online group

Target: 500–1,000 members

YEAR 2

- Increased webinars
- mentorship sessions
- engagement campaigns

Target: 2,000–5,000 members

7. TEAM SCALING STRUCTURE

YEAR 1 (Lean Team – 7 People)

- Founder
- Program director
- Partnership/sponsorship lead
- Product lead
- Marketing / growthLead
- Community Manager
- Operation manager

YEAR 2 (Expanded Team)

- Additional instructors
- Partnership Lead
- Content team expansion
- Operations support

8. OPERATIONAL SCALING

YEAR 1

- Manual systems

- Simple tools (Zoom, forms, WhatsApp)

YEAR 2

- Structured systems
- Website platform
- Student tracking system

9. KEY PERFORMANCE INDICATORS (KPIs)

YEAR 1

- Student enrollment
- Course completion rate
- First job placements
- Community growth

YEAR 2

- Placement rate
- Revenue growth
- Partnership conversion
- Student success stories

10. RISK & MITIGATION

Risks

- Low enrollment
- weak marketing
- poor student outcomes
- lack of partnerships

Mitigation

- strong content strategy
- strict training standards
- consistent outreach
- performance tracking

11. CONCLUSION

BrandoraX's first two years are structured to:

- Validate the training model
- Build a strong talent pipeline
- Establish partnerships
- Scale sustainably

Year 1 proves the system works.

Year 2 proves the system can scale.

ACADEMY SECTOR

BrandoraX Student-to-Employment

Pipeline System

- **Overview**

BrandoraX will operate a 7-stages Talent Pipeline that moves students from training into real employment opportunities.

Pipeline Flow:

Admission – Training – Evaluation – Elite – Selection – Talent pool – Employer matching – Job Deployment.

Only top-performing students (elite talent) will qualify for job placement opportunities through partner companies.

STAGE 1: STUDENT ADMISSION SYSTEM

Students begin through the Brandora Academy.

Admission Requirements

Student must:

- Complete registration
- Choose a specialization
- Pass a basic assessment test (optional)

- Commit a program rule

Available Specializations

- UI/UX Design
- Graphic Design
- Web Dev
- Software Development
- Data Analysis
- Cybersecurity

Once admitted, students enter the training phase.

STAGE 2: STRUCTURED TRAINING PHASE

3 months Program

- Foundational training
- Core skill development
- Mini projects

6 months Program

- Intermediate specialization
- Team project development
- Portfolio development

12 months Program

- Advanced specialization
- Industry level portfolio development
- Real-world problem solving

Students are required to complete:

- Skill assessments
- Project assignments/team collaboration projects
- Capstone projects

STAGE 3: STUDENT PERFORMANCE EVALUATION

At the end of training, students are evaluated.

Evaluation criteria:

Students are assessed based on:

Technical skill

- Quality of work

Project quality

- How strong their final projects are

Professional discipline

- Meeting deadlines
- Communication skills
- Team collaboration

Problem solving

Portfolio strength

Student ranking structure

After evaluation, students are ranked into three categories.

Tier 1: Developing talent

Students are improving.

They receive:

- Certification
- Career guidance
- Portfolio review support

But no direct job placement access yet.

Tier 2: Industry ready talent

Students who meet industry standards.

They gain access to:

- Internship opportunities
- BrandoraX WorkLab projects

Tier 3 – Elite talent (top 10-20%)

These are the best-performing students.

They qualify for:

- Direct employer matching
- Partner company recruitment
- Premium job opportunities

This is where BrandoraX's job promise begins to activate.

STAGE 5: BRANDORA ELITE TALENT POOL

Elite students enter the BrandoraX talent pool.

This is a curated list of top graduates presented to partner companies.

Each elite talent profile must contain:

- Portfolio
- Skill certification
- Performance ranking
- Mentor recommendation
- Work samples

This acts like a talent marketplace for employers.

STAGE 6: EMPLOYER PARTNERSHIP NETWORK

BrandoraX will build partnerships with:

- Startups
- Tech companies
- Design agencies
- Digital marketing firms
- SaaS companies

These partners will:

- Recruit graduates
- Offer internships
- Hire remote workers
- Assign project contracts

WHY COMPANIES WILL PARTNER WITH BRANDORAX

Companies benefit because:

- Students are already trained
- Portfolios are verified
- Talent is pre-screened
- Hiring becomes easier

This saves them recruitment time and cost.

STAGE 7: JOB MATCHING SYSTEM

When a partner company needs talent:

They submit a request to BrandoraX.

The BrandoraX Talent pool manager then:

- Reviews the request
- Searches the elite talent list pool
- Selects qualified candidates
- Sends profiles to the employer

STAGE 8: CANDIDATE INTERVIEW PROCESS

The company then:

- Reviews candidate portfolios
- Shortlists candidates
- Conduct interviews

STAGE 9: JOB DEPLOYMENT

If a student is selected:

They receive:

- Internship placement
- Remote work opportunity
- Full-time employment

BrandoraX records the placement in its Talent success database.

STAGE 10: BRANDORAX PLACEMENT REVENUE MODEL

BrandoraX will generate revenue through:

Recruitment placement fees:

- Companies pay BrandoraX for successful hires.
- Training Partnerships:
- Companies sponsor talent development.

STAGE 11: CONTINUOUS ALUMNI TRACKING

Graduates remain part of the BrandoraX Alumni Network

Benefits include:

- Advanced job opportunities
- Mentorship roles
- Leadership opportunities
- Startup collaborations

This strengthens the BrandoraX ecosystem long-term.

Complete BrandoraX Talent Pipeline

The Strategic Advantage of this system

This structure allows BrandoraX to promise:

- Skill training
- Portfolio development
- Industry evaluation
- Direct employer access

BrandoraX Partnership Acquisition System

- **Partnership Strategy Overview**

BrandoraX will build partnerships with organizations that need digital talents. These partnerships will allow companies to:

- Recruit trained graduates
- Hire interns or remote workers
- Outsource digital projects to BrandoraX teams

The partnership system will focus on three categories of partners.

1. Hiring Partners

Companies that recruit graduates for jobs such as:

- Tech startups
- Software companies
- Design agencies
- Digital marketing agencies

2. Training Partners

Organizations that sponsor training.

Such as:

- Corporate organizations
- Tech firms
- Innovation hubs

• Partnership Acquisition Channels

BrandoraX will use multiple channels to attract partners.

- **Direct outreach strategy** – BrandoraX creates list of target companies.

The partnership team will:

- Research companies
- Identify HR managers or founders
- Send partnership proposals
- Schedule partnership meetings

Typical targets:

- Startups
- Marketing agencies
- SaaS companies
- Design studios
- Consulting firms

- **Startup Ecosystem Partnerships**

BrandoraX will collaborate with: tech incubators, innovation hub, startup accelerators.

- **BrandoraX Partnership Team structure**

- Partnership Lead – builds relationships with companies
- Talent Placement manager – matches students with job opportunities.
- Employer relations officer – maintains relationship communication with partners.

- **Partner Retention Strategy**

- Regular communication
- Talent updates system
- Performance reports

- **Growth Strategy for Partnerships**

Year 1 – 20 partner companies

Year 2 – 50 partner companies

Year 3 – 100 partner companies

CORE FOUNDATIONS

A Brand Identity

This includes:

- Logo
- Brand colors
- Brand typography
- Brand message
- Brand certification design
- Website landing page

The website should explain:

- What BrandoraX is
- Training programs
- Job pipeline promise
- Partnership opportunities

Website

Website will serve as:

- Student registration portal
- Employer partnership portal
- Information hub
- Portfolio showcase

Key pages:

- Home
- About BrandoraX
- Student portfolio gallery
- Partnership page
- Student registration
- Contact page

Learning Platform

- Zoom classroom
- Moodle

This will host:

- Course materials
- Assignments
- Project submissions
- Student progress tracking

Communication system

- WhatsApp
- Slack for team communication
- Zoom or Google meet for live classes
- Email for official communication

Team structure/size

Founder

Will handle:

- Vision and strategy
- Partnerships
- Brand positioning
- Decision making

Academic Lead

Responsible for:

- Designing the curriculum
- Coordinating instructors
- Managing student progress
- Evaluating student performance

Technical / Product Lead

Responsible for:

- Managing the website
- Developing the mobile app later
- Managing the digital systems

Partnerships & Talent placement Lead

Responsible for:

- Finding companies to partner with
- Managing employer relationships
- Matching students with job opportunities

Instructor / Mentor Team

- Graphic design instructor
- Web dev instructor
- Product Design instructor
- Data analysis instructor
- Cybersecurity instructor

Operations & admin manager

Responsible for:

- Student onboarding
- Registrations

- Documentation
- Scheduling
- Program coordination

Team size

For a start:

- Founder
- Academic Lead
- Technical Lead
- Partnership Lead
- Admin Manager
- 2 instructors

Total team:

- 6 - 7 people.

BrandoraX Community Empowerment System (Full Structure)

Purpose of the Community Sector

The Community Empowerment sector exists to:

- expose young people to tech opportunities
- educate and guide beginners
- attract potential students into the Academy
- build trust and visibility for Brandora
- create partnerships with organizations and communities

Core Functions of the Community System

This sector operates through **4 main functions**:

1. Awareness

Introduce people to tech and opportunities.

2. Education

Teach basic knowledge and direction.

3. Engagement

Build relationships with your audience.

4. Conversion

Turn interested people into:

- students
- clients
- partners

Community Structure (Operational Units)

OPERATIONAL UNITS

Content & Awareness Unit

Responsible for:

- social media content
- educational posts
- storytelling
- brand visibility

Content types:

- “What is UI/UX design?”
- “Top tech skills to learn in 2026”
- student journey stories
- beginner guides

Events & Outreach Unit

Responsible for:

- webinars
- workshops
- physical/virtual outreach
- school/community programs

This unit creates **direct interaction with people.**

Community Management Unit

Responsible for:

- managing WhatsApp/Telegram groups
- engaging members
- answering questions
- guiding beginners

This builds **loyal audience and trust**.

Community Workflow (Step-by-Step System)

This is how the system runs.

Stage 1: Awareness Creation

BrandoraX will consistently create content online.

Platforms:

- LinkedIn
- Instagram
- Twitter/X
- WhatsApp

Goal:

Make people aware that:

“BrandoraX helps you enter tech and get real opportunities.”

Stage 2: Lead Capture

We must not just post — you must **capture leads**.

Methods:

- Google Form (“Join our free tech webinar”)
- WhatsApp group invite
- Email list

Now BrandoraX has **interested people in our system**.

Stage 3: Free Value (Webinars & Sessions)

BrandoraX will host consistent sessions like:

- “Introduction to Tech Careers”
- “How to start UI/UX Design”
- “Tech skills that can change your life”

Frequency:

- 1–2 times per week (early stage)

Stage 4: Community Engagement

After webinars, we don’t disappear.

We Create:

- WhatsApp/Telegram group
- weekly discussions
- Q&A sessions

This builds **trust and authority**.

Stage 5: Conversion to Academy

After providing value, we introduce our program.

Example:

If you’re serious about learning this skill, BrandoraX Academy is opening soon.

This is where:

- interested people become students
- students enter our Academy

Types of Community Programs

1. Webinars (Main Strategy)

BrandoraX most powerful tool.

Topics:

- tech career paths
- beginner guides

- industry insights

Goal:

- attract large audience
- convert to students

2. Skill Awareness Campaigns

Short campaigns like:

- 30 Days of Tech Awareness
- Design Career Week

This builds strong attention.

3. Youth Development Programs

You can partner with:

- schools
- churches
- youth organizations

Offer:

- free training sessions
- career talks

Community → Business Connection

It must feed the system.

Flow

Community Team Structure (Lean Start)

Community Lead

- plans strategy
- manages programs

Content Creator

- handles posts and content

Community Manager

- manages WhatsApp groups
- engages audience

Tools to Use:

- WhatsApp (main community)
- Google Forms (registration)
- Zoom / Google Meet (webinars)
- Notion (tracking participants)

Key Metrics to Track

To know if it's working:

- number of webinar attendees
- number of community members
- conversion to Academy
- engagement level

10. What Makes BrandoraX Community Different

Most communities just:

Talk → Motivate → End

Brandora will:

Educate → Engage → Convert → Transform

BRANDORAX 5-YEAR PLAN

Year 1: launch phase

June 2026 – December 2026 (7 Months)

Main Goal:

Launch, validate, and prove: *Train* → *Test* → *Deploy*

ACADEMY TRAINING SYSTEM (YEAR 1)

Focus: ONE SKILL (Company in-demand)

Cohort Structure

Cohort 1 (June – August)

- 3-Month Program (Beginner Track)
- 15–20 students

Goal:

- Test curriculum
- Build first student projects

Cohort 2 (September – February)

- 6-Month Program (Professional Track)
- 15–25 students

Goal:

- Build strong portfolios
- Identify top talents

Training Execution

Weekly structure:

- 2 live classes
- 2 assignments
- 1 project milestone

Evaluation

End of each cohort:

- portfolio review
- mentor scoring

Top 10–20% → **Fellows**

JOB PIPELINE (YEAR 1)

- Reach out to 5–10 start-ups
- Secure 2–3 partnerships

Target:

2–5 student placements

COMMUNITY SYSTEM (YEAR 1)

Weekly

- 1 webinar

Monthly

- 4 webinars
- 1 Q&A session

Community Funnel

Target

- 300–800 members

End of Year 1 Outcome

- First cohort completed
- First portfolios created
- First job placements
- System validated

Year 2: full operation year

January 2027 – December 2027

Main Goal

Build structure, consistency, and credibility

ACADEMY TRAINING (YEAR 2)

Programs

- UI/UX Design (main focus)
- Introduce Graphic Design

Cohort System

Run **every 2–3 months**

Tracks Running Simultaneously:

- 3-Month (entry level)
- 6-Month (main pipeline)
- 12-Month (elite track)

Annual Training Capacity

100–150 students

Evaluation Upgrade

- stricter portfolio standards
- mentor panel reviews

JOB PIPELINE

- expand to **10–15 partner companies**

Target:

15–30 placements

COMMUNITY SYSTEM (YEAR 2)

Weekly:

- 2 webinars

Monthly:

- 1 masterclass
- 1 mentorship session

New Additions:

- student success stories
- skill campaigns

Target:

1,500–3,000 members

End of Year 2

- BrandoraX becomes:
training + job opportunity brand

Year 3: systemization year

January 2028 – December 2028

Main Goal

Build a structured talent pipeline system

ACADEMY TRAINING

Add:

- Web Development

Annual Capacity:

250–350 students

Upgrade:

- certification system
- standardized curriculum

JOB PIPELINE

- 30–50 partner companies

Target:

60–100 placements

COMMUNITY SYSTEM**Weekly:**

- 2–3 webinars

Monthly:

- large virtual events
- career bootcamps

Target:

4,000–6,000 members

End of Year 3

- BrandoraX becomes:
a trusted talent pipeline

Year 4: scale year

January 2029 – December 2029

Main Goal

Expand reach and influence

ACADEMY

Add:

- Data Analysis
- Cybersecurity

Annual Capacity:

500+ students

JOB PIPELINE

- 70–100 partner companies

Target:

150–200 placements

COMMUNITY SYSTEM

Add:

- physical meetups
- outreach programs

Target:

7,000–9,000 members

End of Year 4

- BrandoraX becomes:
a recognized tech ecosystem

Year 5: dominance year

January 2030 – December 2030

Main Goal

Become a top tech talent brand

ACADEMY

- full program expansion
- strong certification system

Annual Capacity:

800–1,000 students

JOB PIPELINE

- 120+ partner companies

Target:

250–350 placements

COMMUNITY SYSTEM

Scale:

- major events
- industry collaborations

Target:

10,000+ members

End of Year 5

BrandoraX becomes:

- Talent authority
- Trusted hiring pipeline
- Community powerhouse

FINAL STRUCTURE (SIMPLIFIED)

CONCLUSION

BrandoraX is positioned to become a structured digital workforce accelerator that integrates training and employment under one scalable model.

By starting online-first, maintaining lean operations, and prioritizing measurable job outcomes, BrandoraX minimizes risk while maximizing scalability.

The long-term vision is to evolve into a recognized talent pipeline institution with both digital infrastructure and a physical innovation center.
